### CrossBreed Holsters BedSide Backup

**D**espite the best efforts to research and plan ahead, sometimes that motel isn't in the safest part of town. In such instances, CrossBreed Holsters' BedSide Backup offers a more practical and secure location for your handgun without relying on a nearby tabletop or drawer. The Backup's main support mounts to a bed by simply sliding between the mattress and box spring. It comes with a CrossBreed Ohai holster for the firearm of your choice, which attaches to the support via study hook-and-loop fasteners. Sporting a compact size and patent-pending design, the mount folds flat, saving space in your luggage. Contact CrossBreed Holsters: (888) 732-5011; [www.crossbreedholsters.com](http://www.crossbreedholsters.com)

### Remington 1911 R1 Multi-tool

**W**hether you're a full-time gunsmith, part-time tinkerer or a self-proclaimed 1911 enthusiast, the Remington 1911 R1 multi-tool puts a new spin on the phrase, "maintenance made easy." Contained within the ergonomic G10 handles are the most-needed implements to quickly repair the old warhorse in a single unit. Its pliers double as a wrench—thanks to Government and Officer's Model-shaped barrel bushing insets. A driver comes with five, double-sided Allen-, Phillips-, Torx- and flat-head bits. It also contains a handy punch for removing a mainspring housing pin. Contact Remington: (877) 801-1911; [www.1911r1.com](http://www.1911r1.com)

### The Mako Group GL-Shock AR-15 Stock

**A**ll shooters could benefit from an endless supply of ammunition, but there's something equally advantageous that's often overlooked. The Mako Group's GL-Shock—manufactured by FAB Defense in Israel—is far from a typical telescoping AR-15 stock. Its internal recoil compensator lessens the effects of muzzle climb and felt recoil, making the GL-Shock a beneficial add-on for law enforcement, military or civilians. From 3-gun competitors to black-rifle enthusiasts with a penchant for the harder-

recoiling chamberings of America's rifle—such as .308 Win, .499 LWR, .450 Bushmaster and .50 Beowulf—this innovative stock will tame the most rambunctious of rifle rounds. Compatible with any commercial or mil-spec buffer tube, the GL-Shock also contains an interior-storage compartment concealed behind a thick, tire-tread-style recoil pad. Models containing an adjustable cheek rest are also available. Contact The Mako Group: (631) 880-3396; [www.makosecurity.com](http://www.makosecurity.com)

### CCW Breakaways Pants

**W**hile you may not be able to beat the oppressive August heat, CCW Breakaways pants provide a fresh alternative to traditional holster-based carry methods. Deep front pockets contain hook-and-loop fasteners, enabling you to adjust pistol cant and depth in order to discreetly carry full-, compact- and subcompact-sized

handguns with no need for a holster. Breakaway pockets enable users to gain a complete firing grip during deployment. Cargo pockets provide extra room for items, while hook-and-loop-backed pouches attach to the inside of the other front pocket to hold spare magazines in place. Contact CCW Breakaways: (717) 774-2152; [www.ccwbreakaways.com](http://www.ccwbreakaways.com)

### Stealth Vault Firearm-Concealment Furniture

**T**ake furniture functionality to a whole new level with the Stealth Vault. Designed to match any décor, this unique furniture combines the beauty of finely crafted hardwood furniture with the peace-of-mind and security of both an easily accessible concealed firearm and a gun safe. Security features include a choice of either a biometric scanner or numeric keypad. Products include dressers, end tables, night stands and hall trees in a variety of finishes and styles. Contact Stealth Vault: (980) 230-4329; [www.stealthvault.com](http://www.stealthvault.com)
